Cheap Universe

V for Volume

I always dreamed of being practical.... Logical....
You wanted me married,
You wanted me quiet
You wanted me buried
So you got a riotCheap universeGo to hell or let me go to hell alone,
Why do we have to go together?
This world is made for those who don't feel at allGo to hell I would be another girl if I could
But clearly I can't help myself
This is a cheap universeYou wanted my taxes
You wanted my sins
You wanted my prayers
So you got me cleanedGo to hell or let me go to hell alone,
Why do we have to go together?
This world is made for those who don't feel at allGo to hell I would be another girl if I could
But clearly I can't help myself
This is a cheap universeThis world is made for those who don't feel at all
