

Something Bout Her Dixie

Riley Green

(Verse 1)

Cut off blue jeans
White t shirt
In the seat right next to me
In my old truck on some backwoods dirt
Still feels like a first date to me
But we've been this way for some time
And she's got me on her leash
But I don't mind the way she runs a show
This old dog just happy as can be

(Chorus)

Don't know what is about this girl that gets me
There's just something bout her Dixie

(Verse 2)

Snuck out of her parents house one cold December night
Bundled up we rode up on a hill
Bottle of moons farm and 13 natural lights
We were feeling bout as good as we could feel
We listened to ever haggard song I had
We danced along by firelight
Got her home at 2 AM and got cussed out by her dad
All I could here was her singing mama tried

(Chorus)

Don't know what it is about this girl that gets me
There's just something bout her Dixie

(Bridge)

You might find her down on the Florida Georgia line
She might be right here in these Alabama pines
One things for sure you can't find her in no big city
There's just something bout her Dixie

Don't know what it is about this girl that fits me
There's just something bout her Dixie
There's just something bout her Dixie
