

Hot Like A Sauna

Tricky

Round the corner
Turn the corner, turn
Hell is round the corner hot like a sauna
I know I hurt her when I tell her that I want her
And with this drama I act like Jeffrey Dahmer
I beat her then I eat her nigga's sweet
There's no one sweeter I think I lost my tweeter
To your pussycats do you call your pistols 'gats'?
Don't sleep her love away
Don't let her run away
Don't sleep her love away
Don't let her
Dream and I'm seein' it harmed a girl like Monica
Everyday be like Hanukkah and change my mind again
Hide off like to find a friend I call her 'Enemy'
She says I act like there's ten of me
A sketch for their clone a dog without a home
But you want more when I was on tour
Told her you should write a lot
Now look how much time you got
Told you, shouldn't run a lot
Now look how much time you got
Take life on the streets your own
Made by Grease beats pure dog
Running with the renegades of NY
Street Dog speak the true talk
Wanna talk about crime? Yeah right
Stick ups- get in mind to realize, alright
Run the airtime, fuck the police it's startin' to get hyped
Niggas gettin' paranoid and void then imply Tetth's a bad boy
Just gonna rap about kids that can't cope
Dogs get mad when niggas stand broke
With a phat rope, yo, what a joke
Shit, I had coke and fifty pound notes
Puffed it for those niggas I know
Far as I know you're a freak if I bone like I go
Trix and Milo, I roll with niggas with big machines
Blank screens, video scenes blue, black and green
Niggas with wigs scared the scam clean

And get the cream- know what I mean?
Diggin' the scene with the gasoline with enough magazines
Them nine to fives, big executives who ride the clock
There'll be no crime from nine to five
There be no crime for none of us
Livin' to find those kinds of drugs with no undercovers
Those motherfuckers can't flop dogs
In any form, this rough coughs quick
I'm sick going where the Jungle is clicking
In England the trans-Atlantic
In Harlem where demands don't quit
Levitating and useless debating
In these devastating times, don't let her run away
While everybody's just doing drugs
And writing melodic rhymes, don't sleep her love away

Trying to get one and not get into trouble
I might just be inclined, don't let her run away
We all got needs, we all do dirty deeds now
And then wanna smoke some weed, don't sleep her love away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away
Come with a bang bang
It's a hangman gettin' my prayer
My hands can slang bang actors
That have the will to gang slang
That's the type of nigga that can't say
You don't go and forget the down times
And the walk while I was with the bad man
Many to fly right? Master plan
Miracle flight like Pan-Am, man,damn
Sure as the echo 'fore that gonna pump the petrol
Niggas with escorts hide in the get-go
Now lay it in the ghetto, yeah y'all
I could find life in a Paris metro
While I'm walkin' around slammin' ghettos in the real
Know the rapper with the black girls
Deliverin' travels with the Maxwell's gettin' paid off girls
Rockwell's, high L's
Well as drop sales with Stock well
Street Dog with a Molotov cocktail
No no can't stop flowin' no, gettin' paid off girls
Rockwell's, high L's

Well as drop sales with Stock well
Street Dog with a Molotov cocktail
No no can't stop flowin' no
Levitating and useless debating
In these devastating times, don't let her run away
While everybody's just doing drugs
And writing melodic rhymes, don't sleep her love away
Trying to get one and not get into trouble
I might just be inclined, don't let her run away
We all got needs, we all do dirty deeds
Now and then wanna smoke some weed, don't sleep her love away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't let her run away
Yeah we're free, yes we need to be free
Walkin' round with unsatisfying needs, don't sleep her love away
