

# Leaving Nadir

## Witchfynde

Let me take you there  
It's part of a dream  
It's what you want it to be Of a time that now is clear to me  
I was playing in the mind of a man  
Who sat in company with the Devil He's tryin' to voice all from below  
Selfish spirits workin' for him, for his soul  
To fall free and pass in Hell  
We're leavin', we're leavin'  
Passed through the white noise  
We're leavin', we're leaving Nadir Being true to fate of what is done he spoke  
I'll free you too  
So we both flew as one  
As straight as any arrow  
Into clouds of darkness, blood red in stone  
Silver crows screamin' loud  
Knights of fire stand alone  
Against all winds that hold me  
Flame licked angel blue changed through  
To holy due anon  
Her scarlet body satinised  
Blackened with desire  
She's leading us on  
She's leading us on We're leavin', we're leavin'  
Passed through the white noise  
We're leavin', we're leaving Nadir
