Blue World

Brutal Truth

If life could bring about [Incomprehensible]
Beyond those gray days
Which way, pursue UtopiaThe punishment on our daydream nations
Calling you, temptations
Countdown, oblivion make no mistakeLife has so much more
Than you let offer welcome the blue
Dead and gray, you shell outIf life could bring about harmony
Beyond those gray days
Which way, pursue UtopiaThe punishment on our daydream nations
Calling you, temptations
Countdown, oblivion, make no mistakeLife has so much more than you let offer
Look for love, look longer
My time with you is over
(Over)
I said it's over, oh yes I didIf life could bring about harmony
Beyond those gray days
Which way, pursue UtopiaPursue Utopia
