Vitamin Piano Series

Those sweet little lies bring hope to your eyes

That is woman in fight

I dropped it one at a time, insignificant crimes

Getting lost in the tide

La la la la la la laa

There's in no one that will take you from me, you from me

La la la la la la laa

There's in no one that will take you from me, you from meTough love in your kiss, it's hard to resist

Do you highlight the shades?

I dropped it one at a time, insignificant crimes

They were no more, washed away

La la la la la la laa

There's in no one that will take you from me, you from me

La la la la la la laa

There's in no one that will take you from me, you from meSee you tonight, you put the smile

I'll forget the fight

The truth you seek, is fiction to me

We're down to the wild

And every time I said I lay waste in the life

A light that you have to believe,

'Cause I lack the self controlLa la la la la la laa

There's in no one that will take you from me, you from me

La la la la la la laa

There's in no one that will take you from me, you from me
