

# Pull

## La Puta ElÃ©ctrica

Pull you down now  
Knees knelt, I got my arms open wide  
I got the shades turned so the colors die  
No, don't hold too tight to the reel 'cause it's a big one boy  
Its' gonna pull you down now, pull you down now  
No, the cook can't look  
No, the cook can't look  
No, no 'cause he's keeping his eye on the kettle  
Indeed he will be around  
When you or you or you feel the need to feel  
Pull you down now  
Well I live more than what you'll ever know  
But I'll give you more than what I'll ever show  
I live more than what you'll ever know  
And I give you more than what I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show  
More than I'll ever show
