

Stormy

Santana

You are the sunshine, baby, whenever you smile

But I call you stormy today

All of a sudden that ol' rain is fallin' down

And my world is cloudy and gray

You've gone away

Old stormy

(Stormy)

Old stormy

(Stormy)

Old stormy

(Stormy)

Old stormy

(Stormy)

Yesterday's love was alive, the warm summer breeze

But like the weather you changed

Now things are dreary, baby, windy and cold

And I stand alone in the rain

Callin' out your name

Stormy

(Stormy)

Stormy

(Stormy)

Come back to me

(Stormy)

Stormy

(Stormy)

Bring back that sunny day

Baby baby baby

Yesterday's love was alive, the warm summer breeze

But like the weather you changed

Everything around you is dreary, baby, windy and cold

And I stand alone in the rain

Callin' out your name

Whoa

(Stormy)

Stormy, come back to me

(Stormy)

Stormy, come back to me

(Stormy)

Come on home
(Stormy)
Bring back that sunny day
