

# Anytime

## The Babys

Hear a message on my radio  
I get home, I got nowhere to go  
Think about ya day and night  
I'll be waiting so when it feels right Anytime you want at all, anytime  
Anytime you want just call Heartbeat faster, lose control  
A burnin' fever gets you alone  
I need your love, you're the only one  
The night is passin', I could soon be gone So anytime you want at all, anytime  
Anytime you want just call  
Anytime you wanna rock and roll, anytime Telephone, telegram  
Come on over, make me feel like a man  
A crack of thunder over my hometown  
I read the future it has to go down So anytime you want at all, anytime  
Anytime you want just call  
Anytime you wanna rock and roll  
Anytime you need my love, anytime  
Anytime you want just call, yeah (Anytime anytime)  
Anytime you want my love, yeah yeah  
(Anytime anytime)  
Anytime you're on your own, yeah yeah  
(Anytime anytime)  
Anytime you want my love  
(Anytime anytime)
