Forever

Sandra

I will remember your first kiss
Forever, forever
You're my shining star, my bliss
Forever togetherThey must have sent you from heaven
And I feel we're the ones, you and meI walk the desert to be with you
I swim the ocean to get to you
I wanna love you till the end of time forever
(Wanna fly with you)I climb the mountain, you set me free
I cross the valley, you shelter me
I wanna stay with you all my life, together
(Wanna die for you)You come and wash away the rain
Forever, forever
You're gonna dry my tears of pain
Forever togetherThey must have sent you from heaven
And I feel we're the ones, you and meI walk the desert to be with you
I swim the ocean to get to you
I wanna love you till the end of time forever
(Wanna fly with you)I climb the mountain, you set me free
I cross the valley, you shelter me
I wanna stay with you all my life, together
(Wanna die for you)Forever
(I wanna love you till the end of time)
I swim the ocean, I walk the desert
I wanna stay with you forever
