

# Faith No More

## Capdown

You think its right when you see my reaction  
some say a small sacrifice  
but the consequence of you're actions hold a much higher price  
cos what is going on  
is just a slower wrong  
joe's re-blinded by a smile ona different face  
and what is going on  
will lead to greater wrong  
coz you're just more of the sameSome say move in the right direction  
but i still fail to see  
how the consequence of your actions  
have sown any seeds  
we're sick of being your foolswhat the fuck is this?  
what the fuck are we really talking about?  
It nothing new  
we see right through  
a desertion of any true belief in creating real equality for allto many times they get away  
but now tis time to make them pay  
its time to enforce the actions we're fighting for
