Turn It On

Default

I got a runaway train running through my veins (comes over)
Got another one in my bed and you don't know her
I can't explain the scratches on my back (all over)
Everything she does for me
Brings me back to you
All the temptations that I can't refuse
Let my confessions take you for a ride
Push it to the edge
The voices in your head can't stop this ride
And when the thrill is gone
I can turn it on for you
I'm looking for something to please her mind (come over)
Got another surprise for you and you can't hold her
Still know you don't have to be (she's over)
Everything you ever wanted you can help yourself

All the temptations that I can't refuse
Let my confessions take you for a ride
Push it to the edge
The voices in your head can't stop this ride
And when the thrill is gone
I can turn it on
All the temptations that I can't refuse
Let my confessions take you for a ride
Push it to the edge
The voices in your head can't stop this ride
And when the thrill is gone
I can turn it on for you
Can't stop this ride
And when the thrill is gone
I can turn it on for you
