# Everything I Love

## SWV

Ive known you long enough, to know you aint feeling love
Spending money is not spending time, a million dollars aint good enough
How can we communicate? If we dont speak?
Baby dont let nothing break us, lets keep it concrete
Our hope is romantic; I cant stand this (no no no)
Been through too much to be taking this for granted (no no no,no no no)
Swear to God Im here for you
Baby dont let nothing break us, lets keep it concrete
Boy youre my heart yeah Im down for you rich or poor
Well still be right here
I put it on everything I love
Youre my everything; yeah it will hurt if you leave
Ill still be right here! I put it on everything I love
We can move on (but losing us aint worth it)
And baby Ima hold on (give me something to work with)
Like a pass, if we drop the ball (Im incomplete)
Baby dont let nothing break us, lets keep it concrete
Boy youre my heart yeah Im down for you rich or poor
Well still be right here
I put it on everything I love
Youre my everything; yeah it will hurt if you leave
Ill still be right here! I put it on everything I love
I know nothing lasts forever
If we try well make it to the day after
Ooooo
Theres nothing better than you and me
Dont let nothing break us, lets keep it concrete
Boy youre my heart yeah Im down for you rich or poor
Well still be right here
I put it on everything I love
Youre my everything; yeah it will hurt if you leave
Ill still be right here! I put it on everything I love
Boy youre my heart yeah Im down for you rich or poor
Well still be right here
I put it on everything I love
Youre my everything; yeah it will hurt if you leave
Ill still be right here! I put it on everything I love
