

# Everything I Love

SWV

Ive known you long enough, to know you aint feeling love  
Spending money is not spending time, a million dollars aint good enough  
How can we communicate? If we dont speak?  
Baby dont let nothing break us, lets keep it concrete  
Our hope is romantic; I cant stand this (no no no)  
Been through too much to be taking this for granted (no no no,no no no)  
Swear to God Im here for you  
Baby dont let nothing break us, lets keep it concrete  
Boy youre my heart yeah Im down for you rich or poor  
Well still be right here  
I put it on everything I love  
Youre my everything; yeah it will hurt if you leave  
Ill still be right here! I put it on everything I love  
We can move on (but losing us aint worth it)  
And baby Ima hold on (give me something to work with)  
Like a pass, if we drop the ball (Im incomplete)  
Baby dont let nothing break us, lets keep it concrete  
Boy youre my heart yeah Im down for you rich or poor  
Well still be right here  
I put it on everything I love  
Youre my everything; yeah it will hurt if you leave  
Ill still be right here! I put it on everything I love  
I know nothing lasts forever  
If we try well make it to the day after  
Ooooo  
Theres nothing better than you and me  
Dont let nothing break us, lets keep it concrete  
Boy youre my heart yeah Im down for you rich or poor  
Well still be right here  
I put it on everything I love  
Youre my everything; yeah it will hurt if you leave  
Ill still be right here! I put it on everything I love  
Boy youre my heart yeah Im down for you rich or poor  
Well still be right here  
I put it on everything I love  
Youre my everything; yeah it will hurt if you leave  
Ill still be right here! I put it on everything I love
