## **Invisible**

## **Wild Beasts**

I see our enemies, I see them on their knees Crawling across the floor, you killed them all Outside our door, the gaping hole Into which all will fallYou have walked through my dreams And I want you to see this Open the door, open the doorStanding at the mall Things vanish one by one Invisible, invisible, invisible Watch them grow, always coming forwardI say my goodbyes To everyone I know Goodbye, goodbyeI burn up my lists And cease to exist Leave nothing behindThe things I thought I'd want They vanish one by one Invisible, invisible, invisible You have walked through my dreams And I want you to see this Invisible, invisible, invisible Your lips to my lips I cease to exist
