Reaching

Evolver

Here in this place
With humbleness and brokenness we seek all You are
We seek You and it?s for You, it?s all for You
We?re leaping over walls to get to You
Would You pull us along, pull us home
We are, we are reaching, we are reaching out
(And we?re calling for You, Lord)
We?re caught up in this hunger
Searching for Your heart
(And we?re calling for You, Lord)
Here on this earth
We lift our eyes to the stars, we seek all You are
We seek You and it?s for You, it?s all for you
We?re breaking off our chains to run to You
Would you fill our hearts, oh, fill our songs
Leaving the lights on, the lights on
We wait for You
This won?t be the last song, the last song
We sing to You
We are, we are reaching
We are reaching out
(And we?re calling for You, Lord)
