Game Over

Blackstar

Christ knows it is easy, so goddamn easy
So come on and give me your best shot
Please criticize me, come analyze me
Because I can take it all, let me tell you nowI know that the game's over for me
But I am just too stuck in my ways
I suppose that the game's over today
And I ain't going quietlyGet over, you know it's easy, it's so plain to see
So come on and give me your best shot
Talk comes so cheap and I can't go quietly
And I can swallow it all, let me tell you howAnd I know that the game's over for me
But I am just too stuck in my ways
I suppose that the game's over today
But I ain't going quietly, yeahThe game's over now
You know it's easy, it's so damn easy
Well, I'm gonna take it all, to get on
