She Comes 'round

[Fastball](#)

She, she belongs to me
But she doesn't know it, oh yeah
She comes walking down the street
She don't notice meAnd she comes 'round
She knows how to turn me inside out
Inside out, upside down
She's got the bombI'm twisted metal tongue
When I get around you, I'm messed
I stutter incomplete
I can't keep a beat, ohShe comes 'round
She knows how to turn me inside out
Inside out, upside down
She's got the bombShe comes 'round my [Incomprehensible]
She gets me every time
She don't even notice me
When she goes walking byShe, she belongs to me
But she doesn't know it, oh yeah
She comes walking down the street
She don't notice meAnd she comes 'round
She knows how to turn me inside out
Inside out, upside downAnd she comes 'round
She knows how to turn me inside out
Inside out, upside down
She's got the bomb, yeah
