Blizzard Beasts

Immortal

Wintriness lurk within enlocked realms
Strenght beheld our demon throne
Supernal journeys from the shrine
Beyond the spirit sideYearning in beast worlds tide
Blackening the lands with blight
Benighted watchers with masterly pride
We rise the demon sideWinters spread by blizzard beastsWait no more centuries we have become
Triumphant sons of an age's blast
Echoes of our shadowed age
Above the winter's masters rageConvoke nebular dimensions
As real as the realms we ride
With none above and none at sideYearning the beast worlds tide
Blackening the lands with might
Benighted watchers with masterly pride
We hold the demon sideWintriness lurk within enlocked realms
Strenght beheld our demon throne
Supernal journeys from the shrine
Beyond the spirit sideWinters spread by blizzard beastConvoke nebular dimensions
As real as the realms we ride
With none above and none at side
