

# On Our Way (Donnie Castle Remix)

## The Royal Concept

I'll believe when the walls stop turning  
I'll believe when the storm is through  
I believe I hear them say  
David won't stop writing songs  
I never wanna shake their hands and stay  
I never wanna shake their hands and stay  
Oh no let's go We are young, we are one  
Let us shine for what it's worth  
To your place, place, place  
We're on our way, way, way  
We're on our way, way, way  
We're on our way somehow  
Hold me close, close, close  
We're losing time, time, time  
We're losing time, time, time  
We're falling to the ground I'll believe when the sky is burning  
I'll believe when I see the view  
I believe that I hear them say  
David won't stop dreaming now  
And everybody clap your hands and shout  
And everybody clap your hands and shout  
Oh no, they shout We are young, we are one  
Let us shine for what it's worth  
To your place, place, place  
We're on our way, way, way  
We're on our way, way, way  
We're on our way somehow  
Hold me close, close, close  
We're losing time, time, time  
We're losing time, time, time  
We're falling to the ground We are young, we are one  
Let us shine for what it's worth  
To your place, place, place  
We're on our way, way, way  
We're on our way, way, way  
We're on our way  
Hold me close  
We're losing time  
Hold me close

We're falling to the ground Taxi drive the sun is rising  
Damn the sirens, keep on driving  
Flashing light, oh what a night  
I miss her bed, I lost my head  
And it's sunning, we're still running  
For her rooftop, our last stop  
Barefoot, naked, don't you let me go To your place, place, place  
We're on our way, way, way  
We're on our way, way, way  
We're on our way somehow  
Hold me close, close, close  
We're losing time, time, time  
We're losing time, time, time  
We're falling to the ground We are young, we are one  
Let us shine for what it's worth  
To your place, place, place  
We're on our way, way, way  
We're on our way, way, way  
We're on our way (This night will never end)  
(This night will never end)  
(This night will never end)  
(This night will never end) Hold me close, we're losing time  
Hold me close, we're falling to the ground
