

Somebody Loves Me

Willie Nelson

Somebody loves me, I wonder who
I wonder who she can be
Somebody needs me, I wish that I knew
Who she can be worries me Every girl who passes by, I shout
"Hey, maybe you were meant to be my lovin' baby"
(You were meant to be my baby)
Somebody loves me, I wonder who
Maybe it's you Won't you believe me?
Somebody loves me, I wonder who
I wonder who that baby can be
She's a killer, thriller Somebody wants me, I wish that I knew
Who she can be worries me
