The Lights Will Know Tonight

Scarlet Fade

Verse:
The lights will know tonight
When Im walking in a thunderstorm
Holding a kite
I know what Im doing
So leave me alone
Im not worth the escort homeChorus:
Love me,
Before I get lost
Look at me,
Like Im every thing it costs
Priceless and wild
Hold me like a child
In your arms
Love meVerse:
My thoughts will burn apart
And blow up in my head
Its killing my heart
So I sit down instead
The pain feels so much better
When its up against my skin
Maybe something good will find its way inBridge:
What do I do when Im lost and alone
What do I say when you always come (2x)
