

# Nine Lives

## Def Leppard

Is your luck enough?  
Is your touch enough? Cmon girl  
Can you keep it up?  
Is your bluff enough?Are you tough enough?  
Is your stuff enough?  
Can you start it up?  
Are you sharp enough?Let it roll, let 'em go, let 'em fly  
Took a chance on a chance but the aces were high  
Get it on, give it up, give it in  
You stole the wages of sin, got to be in it to winNine lives, nine times to die  
Ive been bitten once but I wont be twice shy  
Nine lives, nine times to die  
Come on and show me your hand 'cause its your time to cryHave you lost your touch?  
Are the stakes too much?  
Did you spin the wheel  
And could you close a deal, yeah, yeah?Let it roll, let 'em go, give 'em style  
Took a chance on a chance but the deuces were wild  
Get it on, give it up, give it in  
You stole the wages of sin 'cause youre in it to winNine lives, nine times to die  
Ive been bitten once but I wont be twice shy  
Nine lives, nine times to die  
Come on and show me your hand 'cause its your turn to cry, heyLet it roll, let 'em go, let 'em fly  
Took a chance on a chance but the aces were high  
Get it on, give it up, give it in  
You stole the wages of sin, got to be in it to winNine lives, nine times to die  
Ive been bitten once but I wont be twice shy  
Nine lives, nine times to die  
C'mon and show me your hand 'cause its your turn to cryNine lives, nine times to die  
Ive been bitten once, but I wont be shy twice  
Nine lives, nine times to die  
Its Russian roulette with every roll of your diceAnd nine lives is all youre gonna get  
I said all youre gonna get, yeah  
Nine lives, nine times to die  
Youve just bitten less than your nine lives
