

Manifest Destiny Pt. 2

Rival Sons

You're on to something good
But it can't be all that matters
You're on to something good
But it can't be all that matters You're on to something good
But it can't be all that matters
You're on to something good
But it can't be all that matters You're on to something good
But it can't be all that matters
You're on to something good
But it can't be all that matters
