

# America (Atlas Remix)

Xylo

[Verse 1]

Real life is make believe  
All that glitters isn't gold to me  
Save me from everyone Bite your tongue  
Don't say anything  
You look perfect in this light to me  
Save me from everything [Chorus]  
They say we can stay in America  
You can be free in America  
But I'm sick of listening to everyone

I just want you

I just want you

I just want you [Verse 2]

Close your eyes

Take it slow

We will find a new place to go  
This will all be over soon And if the stripes keep us apart  
I will write your name up in the stars  
Keep myself close to you [Chorus] [Verse 3]

Heavy hearted and I feel so cold

The nights are longer than I've ever known

Wherever you are

Come and get me now When we started it was long ago

It was perfect and well-

Yeah it was perfect

Wherever you are

Come and get me now [Chorus]
