

# The Sound of Revolution

## Warzone

The sound of  
revolution  
It's coming again from the streets  
A lion's roar, a tribal beat  
It's time for you to give a hand  
And fight the battle to the promised land  
The sound of  
revolution  
The youth are getting restless  
But now there's many more  
Living in the streets  
Times are worse than before  
Now you know it's time to make a move  
If you do nothing, then you all lose  
The sound of  
revolution  
The line's been drawn, the battle's clear  
It's time for pride and no more fear  
The revolution now is in your heart  
And together we have  
a part  
The sound of  
revolution
