

Take Me

Korn

You bumped into me
I was down and you took me up past the ceiling
You are the disease
I'm the remedy that numbs all your feelings
You come lookin' for me
I'm the only one that keeps you sound
I bring you down to your knees
'Cause I'm the only that makes you, you, you, youTake me
Please take me
It's the only way
Please take meYou came after me
I'm not worth anything if I'm not inside you
Only you can truly see
All the hell you put me through when the fish is feeding
Can't really make a break
'Cause every time I run away, you hunt me down
You can't ever be me
'Cause every time I turn around it's you, you, you, it's youTake me
Please take me
It's the only way
Please take meI feel it dulling, I feel it helping me
It's taking everything all up away from me
I feel it ripping, I feel it scarring me
This shit has made me cry to all reality
I feel it calling
I feel it calling
It's calling meGo away, away
Go away, awayTake me
Please take me
It's the only way
Please take meTake me
Please take me
It's the only way
Please take me
