I Will Follow You

Bell X1

I will follow you
I will follow you
Put all my money in gold and
Hope that we make it on throughI will follow you
I will follow you
Put all my faith in the man
Who says it's the thing to doThough it won't keep you warm
And you can't eat it
See me on my knees like Fagin
As my crown sinks in the shitI will follow youWe're taking on water
We're carrying the weak
How dare those Chinese folk
Want to eat more red meatThe west is aging
Who will pay for our meds?
I guess when the time comes
We can always just tighten someone else's beltI will follow youThere's too many of
Us hanging around here
Some buying, some
Selling the fear
Of water-wars and
Empty stores and deicideSo go back to where you came from
Or to where you did not
As long as it's not here trying
To take us for everything we gotAnd I will follow you
