

Creation's Tears (feat. Sarah Jezebel Deva)

Creation's Tears

Eyes open to lifes isolation
Creations tears echo in the silence
The forgotten sun lies dormant beyond the skies
But still this beauty rapes the mindThe naked truth exposed
As I gasp for breath
Drowned by lifes sorrows
And the rivers of life overflowMind awakens to lifes possibility
But dream stealers suppress vitality
The cup of life if full, but youre choking on apathy
Greatness can prevail from the midst of catastrophe
