

# Sad Wings

## Halford

Who can say they've never made mistakes  
Only fools will suffer what they make  
Owning up rids poison when you can  
Admitting you were wrong makes you a manIt's everywhere  
But do you care?Sad wings of destiny  
Where have they gone?  
I know eternally  
I'll carry onDid you think that I would disappear?  
Were you so dried up from all your fear?  
Thought you'd make me feel impossible  
You were wrong now who looks like a fool?It's up to you  
What did you do?Sad wings of destiny  
It used to burn  
I know that faithfully  
I'll see you turnIt's everywhere  
But do you care?Sad wings of destiny  
Where have they gone?  
I know eternally  
I'll carry onSad wings of destiny  
It used to burn  
I know that faithfully  
I'll see you turnSad wings of destiny  
Sad wings of destiny
