We Hate You

Electric Wizard

"You see man as a rather dismal creature
"Yes, why not? Look around you'll see what's there
Fear and frightened people who kill what they can't understand"A seed of hate from the day I was born
My right to vengeance from me has been torn
Hopeless and drugged, my black emotions seethe
Loveless and cold, my hate begins to breedBlack nebula, seething in my brain
Then your fucking world brings me down again
So I'll take my father's gun and I'll walk down to the street
I'll have my vengeance now with everyone I meet, yeahA seed of hate from the day I was born
My right to vengeance from me has been torn
Hopeless and drugged, my black emotions seethe
Loveless and cold, my hate begins to breed, yeahWe hate you, we hate you
We hate you, we hate you
We hate you
