I Was so Scared

Claire Blanca

Scraped knees, ripped jeans
You said something about poetry
Never cared about you
Til you said something about poetry

We drive under yellow street lights
We drive under yellow street lights

You're so sad
You drive fast
I'm not scared,
You're just so
Sad
You drive fast
I'm not scared,
You're just so

Now you've pushed me
You said something about killing me
Never not loved you
Til you said something about killing me

We drive under yellow street lights
we drive under yellow street lights

You're so sad
You drive fast
I'm not scared,
You're just so so so
Sad
You drive fast
I'm not scared,
You're just so sad

Take eight steps back, and take twenty more
Never wanna see you back at my door

You're so sad
You drive fast
I'm not scared,

You're just so so so

Sad
You drive fast
I'm not scared
You're just so sad

You drive fast
I'm not scared
You're just so sad
