

Love Your Vibe (Extended Version)

Kodie

Party Army are you ready, it's time time time again
All in or nothing, that's right we ride ride ridin' again

Saturday, time to rave

Put a needle on the record, let's celebrate

I love uniting, my party and everybody's invited

Girl I'm in love with your smile

I love the way that you move

You know you're blowin' my mind

Like a grenade I go boom

Uh!

temperature rising

You making me so high

Girl you know I love your vibe

Oooh girl you know I love your vibe

Girl you know I love your vibe

There's no wrong or right

Do it however you like

We run the night

Until the morning light

There's no wrong or right

Do it however you like

Girl you know I love your vibe I'm lookin' at you, you lookin' at me

I dig ya tattoo

Your body's so fine,

You making me go; ooh girl I gots to have you

Leave the floor girl, get up on the bar

Wine ya body like a superstar

Tonight we go no holds barred

Party hard until the last call

Girl I'm in love with your smile

I love the way that you move

You know you're blowin' my mind

Like a grenade I go boom

Uh!

temperature rising

You making me so high

Girl you know I love your vibe

Oooh girl you know I love your vibe

Girl you know I love your vibe

There's no wrong or right
Do it however you like
We run the night
Until the morning light
There's no wrong or right
Do it however you like
Girl you know I love your vibe
Girl I'm in love with your smile
I love the way that you move
You know you're blowin' my mind
Like a grenade I go boom
Temperature rising
You making me so high
Girl you know I love your vibe
Oooh girl you know I love your vibe
Girl you know I love your vibe
There's no wrong or right
Do it however you like
We run the night
Until the morning light
There's no wrong or right
Do it however you like
Girl you know I love your vibe
