

IMAKEMADBEATS

I've got a head rush, hush, you're heaven's dial, a crush  
 I prayed for you forever and he sent you last November, finally  
     You better hold tight flight two shadows, one at night  
 Each instant lasting so long the spirit in this very song, reminding me Life has taught me lessons like don't dare  
     to question fate  
     For God will do the gifting all we've got to do is wait  
         So if anybody asks you if your love is alive  
         Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
             Three hundred and sixty-five  
             That's how much I love you dear  
             365 I got a love Jones in my bones, I hear a saxophone  
             A melody so haunting it leaves my heart never wanting  
             More than you, you really fit the bill the first day of April  
                 Now I know that deep inside my heart  
 You're gonna play the biggest part in my love debut For with you comes the passion like springtime I fathom  
     grand  
     I cherish every blessing I get when you kiss and hold my hand  
         So if anybody asks if your love is alive  
         Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
             Three hundred and sixty-five  
             That's how much I love you dear  
             365 Do you remember last November, baby  
 That's when I met you, heaven sent you baby, ah Sometimes I stop and throw my hands up in the air  
     You make me holler, hey Tee Tee won't go away  
         It's more than just a feeling, it's destiny  
 I'm gonna testify about the long you're giving to me I'm gonna break it down for you, gonna break down  
     Break it down, break it on down, I love you  
         Anybody asks if your love is alive  
         Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
             That's how much I love you baby  
             Three hundred and sixty-five  
             That's how much I love you 365, 365 days a year  
             That's how much I love you baby  
                 Three hundred and sixty-five  
             That's how much I love you 365, 365 days a year  
                 That's how much I love you baby
