

# Hard Road

## Dub Fx

There's a fire on the mountain

    There's a fire in my soul

There's a sign on the highway

    It's a hard road

There's a break in a heart

    There's a break in a bone

There's a ghost in the dark

    It's a hard road

There's blood in the kitchen

    In the shape of a sin

There's a ship in the water

    But it ain't coming in

There's a fall of an angel

    At the end of the show

But who's gonna save my soul

    It's a hard road

There's a heavy jacket

    There's a heavy load

There's a weight on my shoulders

    It's a hard road

There's a howl at the backdoor

    There's a howl in the cold

    There's a broken bottle

    It's a hard road

There's blood in the kitchen

    In the shape of a sin

There's a ship in the water

    But it ain't coming in

There's a fall of an angel

    At the end of the show

But who's gonna save my soul

    It's a hard road

There's a strange feeling coming over me

    Hollow eyes misery

There's someone at the backdoor

    There's someone in the cold

    God save my soul

    It's a hard road
