In The Meantime

Del Amitri

UK CDS "Driving With The Brakes On"Maybe you are crying now
Or maybe you're relieved
I guess we both stopped trying Baby to believeAnd maybe you are hurting badly
Or maybe you feel free
Taking one last journey with me away from you and meBut who is there to go to now
And what are we to do
Living in the meantime until we find somebody newMaybe this will help you now
Give you room to breathe
Or maybe all the pain you feel will never ever leaveAnd who is there to turn to now
Who can help us make it through
Living in the meantime until we find somebody newSo you said you loved me baby
For the last time now it seems
And I said I loved you baby, but I don't know what that meansAnd who is there to lie to now
How do I survive this without you
Living in the meantime until we find somebody new
