

# Statues Of Ourselves

## Semi Precious Weapons

Dance me face to face  
While I finger your ribcage  
Dance me face to face  
While I finger your ribcage I've got a filthy mind, love  
She's got those laser light gloves  
Thursdays 3 a.m.  
We dance like fucking legends She spins the record open  
We're gonna dance it broken  
You know we always will  
'Cause love could get us killed No, we don't know if this will live  
So we're gonna build  
No, we don't know if this will live  
Our own legends We're gonna build statues of ourselves  
We're gonna build statues of ourselves Darling, boys all love her  
Help her keep her cover  
Someone turn on the fog  
Before the next song Love breeds only love, love  
Magnetic kicked the bad stuff  
Thursdays 3 a.m.  
We dance like fucking legends No, we don't know if this will live  
So we're gonna build  
No, we don't know if this will live  
Our own legends We're gonna build statues of ourselves  
We're gonna build statues of ourselves  
We're gonna build statues of ourselves  
For us and no one else Dance me face to face  
While I finger your ribcage  
Dance me face to face to face  
While I finger your ribcage Dance me, dance me face to face to face  
While I finger your ribcage No, we don't know if this will live  
So we're gonna build  
No, we don't know if this will live  
Our own legends We're gonna build statues of ourselves  
We're gonna build statues of ourselves  
We're gonna build statues of ourselves We're gonna build statues of ourselves  
We're gonna build statues of ourselves  
We're gonna build statues of ourselves We're gonna build statues of ourselves  
Come on, come on, come on  
Build statues of ourselves

We're gonna build statues of ourselves  
For us and no one else
