Don't just sit there and stare at me
Don't just sit there and watch me bleed
I'm losing you and you, you're losing me
 I'm tired of what we are
 I'm tired of all the pain
I'm losing you and you, you're losing me
 Face lies flat, I see my reflection
 Download thoughts
 But your files are corrupted
 Don't just sit there and stare at me
 Don't just sit there and watch me bleed
 I'm losing you and you, you're losing me
 I'm tired of what we are
 I'm tired of all the pain
 I'm losing you and you, you're losing me
 You, you're losing me
Time stands still and you're frozen in motion
 I held down your escape
 But you're crashing, you're crashing
 Don't just sit there and stare at me
 Don't just sit there and watch me bleed
 I'm losing you and you, you're losing me
 I'm tired of what we are
 I'm tired of all the pain
 I'm losing you and you, you're losing me
 Don't just sit there and stare at me
 Don't just sit there and watch me bleed
 I'm losing you and you, you're losing me
 I'm tired of what we are
 I'm tired of all the pain
 I'm losing you, we're losing
 We're losing, we're losing
