Smoke & Fire

Beasts With No Name

I never know
Where the wind will blow
Until it's tearing at the roof over my head

You don't look you stare
You don't talk you tell
Ask a question when the shots go ringing in the air

And I'm on my knees
But I'm not gonna leave

I can't stand a liar
Pounding in my head
I know your smoke is just a fire

It's rising higher
Filling up the air
I know your smoke is just a fire

It's what you said
It's in my veins
I can't let you go
I can't forget and walk away

You're making me sweat
I'm burning red
My favourite song you're singing softly in my head

And I'm on my knees
But I'm not gonna leave

I can't stand a liar
Pounding in my head
I know your smoke is just a fire

It's rising higher
Filling up the air
I know your smoke is just a fire

I know your smoke is just a fire

I know your smoke is just a fire

Fire
Fire
Here comes the liar

Fire
Fire
Here comes the liar

I can't stand a liar
Pounding in my head
I know your smoke is just a fire

It's rising higher
Filling up the air
I know your smoke is just a fire

Can't stand a liar
Pounding in my head
I know your smoke is just a fire

It's rising higher
Filling up the air
I know your smoke is just a fire

Fire
Fire
Here comes the liar
