Witness (feat. Veela)

Approaching Nirvana

Moonlit travels proving to time you can haggle.
Midnight battles losing your mind in the saddle.
Witness hands full knew it by heart as it was told.
Sleepless and cool fooling the darks and the ice cold.Stop, stay here a while.
Stop, stay here a while.
Stop, stay here a while.
Stop, stay here a while.
Witness hands full knew it by heart as it was told.Streetlight candles choosing the night as a chapel
Feel like vandals, vandals and scandal.Stop, stay here a while.
Stop, stay here a while.
Stop, stay here a while.
Stop, stay here a while.
Got me waiting, got me waiting.Asphalt siren who won't disclose where she's been.
Castle tyrant let it come, let it in.
Selfish shadows meet here shallows.
So stop, stay here a while,
Stop, stay here a while.
Got me feeling like a child got me waiting.Witness hands full knew it by heart as it was told.
Sleepless and cool fooling the darks and the ice cold.Cast iron siren see it all keep within.
Asphalt silence bring you back from what you've been
Who are you today?
You'll be ok
You'll be oh...
