

A Swallow in the Sun

Eels

My love, let me bring, anything your heart desires
everything you'll ever need
when you rise when you retire Sweet thing, oh my word
such a very pretty sight
as a swallow in the sun
as a sparrow in the night Chorus:
My love can you not feel it?
I don't know how to let you go
A swallow in the sun
A sparrow in the night
All alone. Dear heart if I may
you are beauty of the earth
you are broken like a glass
you don't know what you are worth
