

Waster

the stonewolf band

I'm a take her off to Jamaica, then I'm
gonna break her, cause I'm just a waster, now
be gone when I wake up, treat you like a stranger,
Hear me when I say girl, I'm just a waster. Maybe I should call my dad, and tell him about
the women I had, Hats off and we could
talk for awhile, but that just aint my style,
the heart lies so the eyes pre-conceive, your
mind can't unwind, hard truths of society, hard
times for the ink on my skin, can't see bright lights
from within. I'm a take her, off to Jamaica, then I'm gonna
break her, Cos I'm just a waster, now be gone
when I wake up, leave me breakfast, here
me when I say girl, I'm just a waster Middle 8 - Save yourself x 2, just save yourself x 2

Repeat Chorus 1
