

Sit Yourself Down

Stephen Stills

When I get restless what can I do?
When I need someone I think about you
I got to move on not fade away
I'm only just growing a little each day(Hold it)
I got to quit this runnin' 'round
(Hold it)
Never gonna get rid of these blues
(Hold it)
I got to find somebody to love
(Hold it)
Slow me down, yeah
(My what a time)
Look out now Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around When I get older mellowed down
Get myself settled on a patch of ground
Takin' it easy live everyday
Me and the raven we make our way(Hold it)
I got to quit this runnin' 'round
(Hold it)
Never gonna get rid of these blues
(Hold it)
I got to find somebody to love
(Hold it)
Make me slow me down, yeah
(My what a time)
Look out Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around
Sit yourself down, take a look around
