If You See Natalie

Eels

If you see Natalie
Send along this message
I know that you've been through
An awful lot of late
Girl
Steady the tremblin' hand
That's what you do
Girl
Steady your tremblin' hands
Then see what's in front of you
Friends and fortunetellers
They all say, "You're gonna die"
If you don't brighten up
You know you gotta try
Girl
Steady the tremblin' hand
That's what you do
Girl
Steady your tremblin' hands
Then see what's in front of you
If you see Natalie
Send along this message
You may not need this world
But this world needs you here
Girl
Steady the tremblin' hand
That's what you do
Girl
Steady your tremblin' hands
Then see what's in front of you
You might not feel it now
But you're gonna get there
And see it somehow
You're gonna be alright, girl
