

# You Alone

Rex Goudie

I wonder if you even know  
You're so beautiful the way you glow  
Yea when you look at me  
I'd do anything to make you smile  
Get closer maybe in a while  
Oh can you feel it to?  
When I'm close to you[Chorus]  
I want you to run with me under the stars  
To show me the girl that you really are  
When no one's watching  
I want you to dance like you've never been hurt  
To tell me a secret that no one's heard  
I want you, and you alone tonight Wait up for the sun to rise  
Go ahead and close your eyes  
Fall into my arms  
You don't have to be afraid  
Of giving anything away  
When you're here with me  
Just be free I want you to run with me under the stars  
To show me the girl that you really are  
When no one's watching  
I want you to dance like you've never been hurt  
To tell me a secret that no one's heard  
I want you alone tonight And it's wild  
And it's wild  
How you make feel and where you take me When you're here[Chorus] I want you you you  
I want you and you alone tonight  
I want you you you  
I want you and you alone tonight, you alone tonight
