Unprofessional

Katy Rose

I think that we're all starving
Getting broke with no warning
Spent it all on new heart strings
Oh I don't know how I'll eat today
Every option's looking grey
Won't somebody throw me away?It's all about who we fool
We splash in the swimming pool
We flash at the carpool at school
Pain is inevitable
Suffering is optionalI can't go back that's the wrong way
But the truth is I can't stay
This mess left too many stains
I'm out-numbered but driven
So it's time I keep on living
It must be worth somethingIt's all about who we fool
We splash in the swimming pool
We flash at the carpool at school
Pain is inevitable
Suffering is optional
