

# Meet Me in the City

## Junior Kimbrough

Meet me over in the city  
And I see everything is so fine

We'll get together now, Darling  
Oh yeah, we will  
We'll make everything all right

Oh Honey, don't  
Please, please don't leave me right now  
Right now

You got me, Baby  
You got me, Girl  
You got me where you want me, Baby  
Now Girl, I know you are  
Satisfied

You got me, Baby  
You got me, Girl  
You got me where you want me, Baby  
Now Girl, I know you are  
Satisfied

Yeah but there's one more thing I wanna tell you right now, Baby  
Don't leave me, Girl  
Please, please don't leave me right now  
Right now

Sometimes I think I will, Baby  
And then again my my my my my mind'll change

Yeah, sometimes I think I will, Baby  
And then again my my my my my mind'll change

Ah tell me don't do it right now  
Please, please don't leave me right now, right now

Ah ha, I love you, Girl  
Yeah a yeah yeah yeah yeah  
I love you, Babe

Please, please don't leave me right  
Right now
