

Need Not Be

Alpine

Sugar, sugar bit my tongue
Flash delight on my open chest
Glitter heights from my mind in bed
Imagination takes place right now
I see you looking into that blue, blue blue
Fire fire, damn what a cliché
Quick pore it out
Vent on me baby that's what I'm here for
That's what I'll lend an ear for
I'm confused between sex and love
I'm confused about trust and heat
I'm looking down at my limbs
Sprawled across the thread count
It's sexy, it's me
I'm earth
I'm holy fucking free
Get out of monotony
Get out of monotony
Yes we fucking can
Yes we fucking can
Understand
understand
I'm learning I'm learning
I'm learning I'm learning
Focus
Focus
Focus
Hit to the messy colour of my favourite lover
I'm suckered in like nothing I've seen
Baby's got ideas, baby's got thought
That pattern my window like rain
I can't I can't I can't seem to know me the same
Romance makers end up taking
Fake crusaders that give me shame
shame
shame
Get out of monotony
The feeling is over
The feeling is over

Yes we fucking can
Yes we fucking can
Understand
Understand
I'm learning I'm learning
I'm learning I'm learning
Focus
Focus
Focus
I've been waiting for it
I've been waiting for it
Do I wanna let this go all night?
Do I wanna let this go all night?
