

When Can I See You Again

Chico DeBarge

Last night it all started out with a kiss
Shook by the taste of your lips
Took me in your arms and held me tight
So wrong but it felt so right I don't wanna see tomorrow without you
I'll do whatever you want for me to do
I'm outside the door, let me in
Girl, when can I see you again? When can I see you again? I can't get enough
Girl, you know you really need to tell me
When can I see you again? Can you tell me? When can I see you again? I'll take what I can get
Girl, you know you really need to tell me
When can I see you again? Can you tell me? There's no good in goodbye
How am I supposed to make it through the night
Think about the way your ass brings tears to my eyes
Dreamin' about the way it could be, me for you, you for me How I wish that you could be mine
Not just for a moment, for all time
'Cause if you're by my side I can win
Tell me when can I see you again? When can I see you again? I can't get enough
Girl, you know you really need to tell me
When can I see you again? Can you tell me? When can I see you again? I'll take what I can get
Girl, you know you really need to tell me
When can I see you again? Can you tell me? Talk to me, I don't believe, I'm askin' for too much
More and more I'm feinin' for the feelin' of your touch again
When can I see you, baby, baby? Can I see you, baby? I've been lookin' for you, baby
But I can't seem to find you, baby
I'm searchin' through the shadows of the night, searchin' for you
See, I thought maybe, thought maybe that
The vibe we was feelin' will bring us back together again, baby Are you lookin' for me, baby?
Can't seem to find each other, can we, baby?
I know, baby, don't worry, baby
Once I get to you, I'm not goin' nowhere, baby Hear me mama, do you feel me, baby?
Yes, you know I'm lookin' for you, don't you, baby?
That's right, mama I can't get enough
Girl, you know you really need to tell me
When can I see you again? Can you tell me? When can I see you again? I'll take what I can get
Girl, you know you really need to tell me
When can I see you again? Can you tell me? When can I see you again? I can't get enough
Girl, you know you really need to tell me
When can I see you again? Can you tell me?
When can I see you again?
