

# Cosmonaut No. 7

## Scarfo

Ten miles high  
In unlit lights  
I love you  
With my car, my life, my  
Oxygen is worthless  
You're suffocating, nervous  
I sold tomorrow  
You'll die here  
You'll die here  
Way gone beyond your station  
Can't fix your self-fixation  
Wish you had the will not to live  
Wish you could find a sedative  
Can't find life  
On telephone, on radio  
Receiver's cold and  
It kills my nervous system  
Tell the family I miss them  
They sold tomorrow  
You'll die here  
You'll die here  
Way gone beyond my station  
Can't fix my self-fixation  
Wish you had the will not to live  
Wish you could find a sedative  
I hate this skyline  
The luxury boxes  
The plastic watches  
To tick your time away  
And oxygen is worthless  
You're suffocating, nervous  
They've sold tomorrow  
You'll die here  
You'll die here  
Way gone beyond my station  
Can't fix my self-fixation  
Wish you had the will not to live  
Wish you could find a sedative  
I hate this skyline

You'll die here  
You'll die here  
You'll die here
